

Welcome to this introductory course on finance!

After completing this course, you'll be able to:

- Explain the purpose of the three key financial statements:
 - Income statement
 - Balance sheet
 - Cash flow statement

- Compare and contrast company performance by using five key financial ratios:
 - Debt ratio
 - Current ratio
 - Return on sales
 - Asset turnover ratio
 - Return on equity

Building these skills will give you some foundations to understand the financial performance of companies. This knowledge could be helpful in evaluating your employer, potential employers, or investment opportunities.

You may even realize that you enjoy the world of finance and consider pursuing additional learning opportunities such as a full finance course, Fintech Boot Camp, or a bachelors/micro bachelors degree in accounting or business!
